

# Simulated Altitude Training Hypoxic Generator

Altitude training allows athlete's bodies to produce more red blood cells

Simulated Altitude Training is quickly emerging as the world's most promising development of athletic performance and peak fitness

## Specifications

Flow Rate	0-10L/min
Net Weight	31kg
Hypoxic Air Purity	9.5%-20.5%
Oxygen Purity	93±3%
Maximum Flow	120L/min
Power Consumption	≤680W
Working Voltage	230V
Altitude	0-8500M
Outlet Pressure	0.04-0.08Mpa
Noise Level	55dB
Dimension	365*400*650mm
